

ArcGIS® 9

Production Line Tool Set (PLTS™)

PLTS™ for ArcGIS® facilitates efficient data production, maintenance, and quality control as well as cartographic product generation and workflow management. PLTS solutions allow organizations to streamline production for compliance with industry standards. The flexible components and rules can be adapted to maturing specifications, while additional rules can be defined to meet new product specifications.

Solution Name	Description
PLTS for ArcGIS—Foundation	Includes tools that implement business rules for database modeling, editing, validation, and map production.
PLTS for ArcGIS—Aeronautical Solution	Provides aeronautical agencies with tools for data management and maintenance as well as high-quality chart production.
PLTS for ArcGIS—Defense Solution	Includes defense specification models, production rules, and utilities for digital data and map production.
PLTS for ArcGIS—Mapping Agency Solution	Contains models and business rules that allow national mapping agencies to efficiently create and maintain large- and small-scale products.
PLTS for ArcGIS—Nautical Solution	Provides business rules derived from standards as well as tools for data management and maintenance that enable electronic and hard-copy chart production.
Component Name	Description
Map Production System—Atlas (MPS-Atlas™)	Facilitates cartographic production for consistent batch map and chart creation.
GIS Data ReViewer	Provides management of automated and visual quality control, resulting in efficient and consistent data validation.
Job Tracking for ArcGIS (JTX™)	Streamlines workflow and version management for enterprise geodatabases and simplifies job creation and assignment.
Task Assistant Manager	Enables linked workflow instructions that standardize editing, quality control, and cartographic tasks within ArcMap™.
Defense Solutions	ArcGIS Military Analyst extends display and analysis tools, and Military Overlay Editor (MOLE™) adds military symbology.

PLTS™ for ArcGIS® 9.3.1—Mapping Agency Solution

Welcome to Production Line Tool Set (PLTS™) for ArcGIS® 9.3.1—Mapping Agency Solution. The software and sample data are provided on DVD media. If another media format is required, consult your local ESRI® distributor or regional office for additional options.

DVD 1: Setup Programs

Foundation
Mapping Agency
JTX™ Desktop (Administrator Edition)
JTX Desktop (Standard Edition)
Task Assistant Manager

DVD 2: Data and Tutorials

Mapping Agency Sample Data
Developer Samples
Foundation Data and Tutorials

Installing

- Verify system requirements at <http://support.esri.com/index.cfm?fa=knowledgebase.systemRequirements.gateway>.
- Insert DVD 1. If autorun is enabled, a DVD setup menu will appear. If autorun is disabled, navigate to the DVD and run ESRI.exe.
- For detailed installation instructions, select the installation guide next to the software you want to install.
- Select the software you want to install from the setup menu and follow the instructions to complete the installation process.
- If you have any questions about the software listings, click the Help button on the setup menu for more information.

Licensing

PLTS for ArcGIS 9.3.1—Mapping Agency Solution utilizes standard ArcGIS licensing. You will need to add the appropriate license features to unlock the software. You can request licenses through ESRI Customer Service at <http://service.esri.com> or via e-mail at service@esri.com. Licensing for international users is provided by local distributors. A directory of distributors can be found at <http://www.esri.com/locations>.

Support

User forums, knowledge base articles, and downloads are available at <http://support.esri.com>.

Technical support for users within the United States is available through e-mail at support@esri.com or telephone at 1-888-377-4575.

Technical support for international users is provided by local ESRI distributors. A directory of distributors can be found at <http://www.esri.com/locations>.

Educational Opportunities

GIS literature and proceedings can be extremely useful in understanding how to use GIS software as well as what it can be used for. ESRI Press and the ESRI Library can be found at <http://training.esri.com>.

GIS training allows you to quickly become productive. Both instructor-led and Web-based training courses are available. Information on course content and schedules can be found at <http://training.esri.com>.

PLTS for ArcGIS

ESRI offers PLTS for ArcGIS in a number of solutions to meet the needs of users in different industries. Information on other PLTS software can be found at <http://www.esri.com/plts>.
